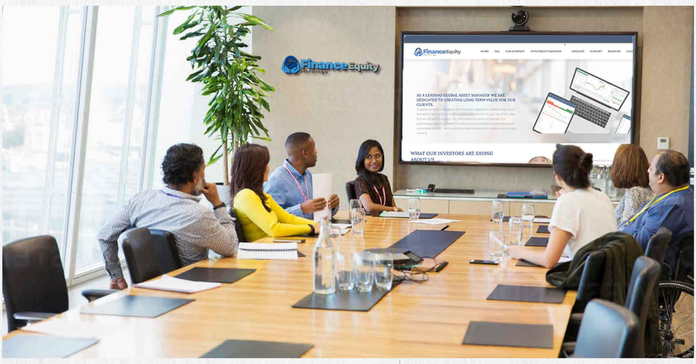
# about us

**FINANCE-EQUITYHOLDINGS.COM** is dedicated to helping investors around the world reach their desired investment goals and broaden their financial horizons. We provide investment products and solutions to our clients across the world. Our breadth of investment capabilities is extensive and among the most innovative within the market.

finance-equityholdings.com was founded on a simple but revolutionary idea that an investment company should be run for the sole benefit of its investors. And so finance-equityholdings.com was designed to be different, removing outside owners and outside interests from the equation. Because of our investor-owned structure, finance-equityholdings.com success can only be measured by your success.



We offer our investors access to high-growth investment opportunities in the financial markets through the utility of state-of-the-art technical facilities and the implementation of industry standard cryptocurrency trading strategies. We're proud to be an asset management company whose culture is driven by strong values and a long-term vision. At finance-equityholdings.com Investments, our vision, mission and core values serve as the catalyst in our relations with our clients, employees, shareholders and in the communities in which we live and work. They are our guiding compass in our business each day. We are committed to offering high-performing investment packages to our investors. Our primary focus has been on emerging and rapid growth investment markets with an emphasis on Forex (PAMM/MAM), Cryptocurrencies and other top performing investment solutions. We are proud to work to the highest ethical standards of Bitcoin mining and other trading strategies. We are pleased to offer some of the most dynamic and high-performing investment packages available.

# Why Choose US

finance-equityholdings.com is a leading investment/ asset management company offering premium investment services to investors; both individuals and corporations. We pride ourselves in our guarantees and success track record in the trading/investment market. Our goal is to enhance lives by providing a safe avenue, inspired by effective and innovative solutions for investing in the different, emerging investment packages in order to improve our investors' financial situation and ultimately provide them financial freedom.

## OUR INVESTMENT PHILOSOPHY

We will maintain a consistent decision making process within the organization and invest responsibly as a major investment firm. By looking for market inefficiencies, we determine the gap between the optimal price and the current market price of the asset, and produce excess revenue. We look for investment opportunities through intensive research, analysis and insight. With a continuous and consistent investment approach and extensive risk management, we aim to steadily reach our investment goal. We combine our deep knowledge of local markets with the power of coordinated global oversight to drive better investment outcomes for our investors.

## THE REVOLUTION IN ASSET INVESTMENTS MANAGEMENT

## RETIREMENT AND PENSION FUND INVESTMENTS PACKAGE

Our retirement and pension fund investment package is built on our Economic Scenario Generator, which delivers consistent modeling of a broad range of assets and economic risk drivers. Use them to analyze the impact of strategic asset allocations, design journey plans leading to self-sufficiency or buy-out readiness, and investigate the effect of liability-driven investments. Model alternative assets, including hedge funds and private equity funds, and traditional assets, such as equities, debt, and property, and enable stress tests and sensitivity analyses.

Against the backdrop of “New Normal” financial conditions of historic low interest rates, bond yields combined with low property rental yields, and disappointing equity market returns, pension funds are under great pressure. They need to deliver higher returns to meet their increasing liabilities due to the greater longevity of pension scheme members. Investment and Asset management remains a critical consideration as pension funds investments seek to leverage their natural liquidity in order to generate higher returns from longer term investment in new capital assets. The traditional approach of allocating to existing securities markets – which may only result in increasingly inflated prices for existing capital – is increasingly being called into question.

### Pension Fund Investment and Risk Management

To achieve the best results and generate sustainable profits for our investors, we implement accurately defined profit-oriented pension funds investment strategies, design and test the effectiveness of hedging and risk mitigation strategies, using a comprehensive array of dynamic rebalancing triggers and derivative instruments, including limited price index (LPI) swaps

We spare no expense in our perpetual drive to understand the impact of adjusting duration or credit exposure, changing the rebalancing strategy, or applying a new hedge to part of the liability risk exposure, in terms of solvency risk metrics or other capital requirements. Improve your investment design, governance, and communication for wealth management, retail investment, and retirement income, including risk-graded and target date funds, guarantees, Commercial Property Price Indices™ (CPPI), and diversified growth.

### How much can you add to your pension?

How much you should put in your pension depends on your personal circumstances.

Pension and tax rules can change, but as a rule of thumb, if you want to retire at 65, you should consider saving an annual percentage of your salary that's equal to at least half your age when you start saving. So if you start saving when you're 24, you should consider putting at least 12% of your salary in your pension each year until you retire. If you start at 40, you should consider at least 20%. Try and maintain this percentage as your earnings increase. Note: You can usually pay in as much as you earn up to £40,000 a year, and get tax relief. If you don't have any earnings, you can still pay in up to £3,600 a year and recieve tax relief. You may be able to pay in more than £40,000 if you have unused allowance from previous years.

### How a Pension works

-You pay money regularly
-You get a top up from the government
-You have a pot of cash to live on when you work less or retire completely

A pension is simply a pot of money which grows free of UK tax.

You, your employer, and the government can all pay into it. You can also pay into someone else's for example for your spouse or children.

### Choosing how to take your pensions

You can usually take your pension from 55 and have range of options to choosde from for income. You'll also be able to recieve up to 25% as tax-free cash.

## PAMM/MAM INVESTMENT PACKAGE

PAMM (Percentage Allocation Management Module or sometimes Percentage Allocation Money Management) is a popular Forex broker extension that allows traders and asset managers to manage investors' money. Money Managers trade Forex accounts of the Investors via PAMM/MAM. The module simplifies and secures the relations between Investors and the Broker.

The PAMM/MAM investment package is a unique product that allows investors to earn without having to actually trade Forex themselves. You can invest in the Forex PAMM/MAM investment pacakge, finance-equityholdings.com will receive a percentage of the profits they earn from trading with your funds as a commission.

The PAMM service has been one of the most in-demand financial instruments in 2020 with a turnover of over $92Bn during the first nine months of the year. finance-equityholdings.com continues to improve and refine the service, striving to make it as transparent and understandable as possible for customers. As part of the next stage of operations, the PAMM account rating formula has been upgraded.

The method used to calculate the growth rate for a specific period has been updated in order to exclude being placed in the top rating of PAMM accounts that have not been traded for a long time. Now, the final calculation of positive growth for a specific period will not include data for the most recent period:

-An annual calculation will not include the last quarter
-A six-month or quarterly calculation will not include the last month
-A Weekly calculation will not include the last week

Please be advised that calculations using the updated rating formula will begin on the 28th of October at 13:00 (GMT+3). You are kindly requested to take this information into account when planning your trading and investment activity.

### FOR INVESTORS

**Return**

The potential of the Forex market is unlitmited. You can earn high returns by investing in a PAMM investment package without being skilled at trading.

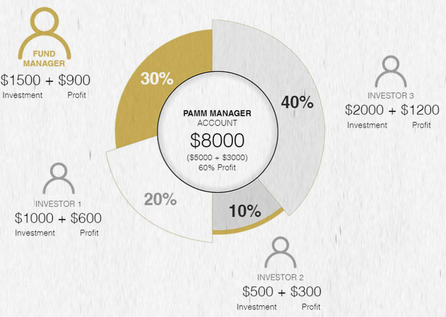
**Transparency**

The PAMM service has undergone a compliance check by an international auditing firm. You can see the results of the audit for yourself in your finance–equityholdings.com investor dashboard.

**Control**

You can withdraw your profits, or all of your funds, at any moment via your finance–equityholdings.com investor dashboard. You can also spread your risks by investing in several different PAMM investment packages.

Understanding how the finance-equityholdings.com PAMM Program Works
As a finance-equityholdings.com PAMM investor, you open a finance-equityholdings.com PAMM Account and allocate funds to your investment Account – this is known as the Manager's Capital. When a PAMM Manager successfully manages investors' funds by generating a profit, the Manager and the investor(s) will receive a Success Fee – a pre-agreed percentage of the investor's share of the profit.



PAMM Managers trade using invested capital (Manager's Capital) and the funds of any investors in the account. Simply put, any profits and losses generated on the PAMM Manager's Account will be shared between all accounts that are invested in the PAMM Manager on a proportional basis.

## LUCRATIVE INVESTMENT OPPORTUNITY AT YOUR FINGERTIPS.

The PAMM account features a management module that distributes the sizes of trades according to an allocation percentage. This solution is offered by many forex brokers for investors and fund managers. With a PAMM account, an investor can also allocate a percentage of h is account to one or more managers.
We provide the PAMM/MAM investment package to our investor across the world. Our breadth of investment capabilities is extensive and among the most innovative within the Forex market. Our investors want rapid asset growth, but have a limited capacity to absorb downside risk. Risk is our scarce resource, to be deployed where it will earn the highest return.

### AS A LEADING GLOBAL ASSET MANAGER WE ARE DEDICATED TO CREATING LONG-TERM VALUE FOR OUR CLIENTS.

Aligning our brand with those who share our values and ambition helps us to strengthen and build our business around the world. It is also one of the ways that we are able to support the communities in which we operate. Our partnerships reflect our belief in continuous development, performance and sustainable growth – and we aim to inspire excellence in whatever we put our name to.

# AFFILIATE

Strategy matters. finance-equityholdings.com's approach to managing investments on behalf of our clients is to combine an in-depth appreciation of their unique circumstances and objectives with the investment capacity of a large-scale institutional investor. That means knowing when to apply traditional strategies and when to deviate to ensure consistent, strong risk-adjusted returns.

We offer national and international long-term investing for our users. We know that the asset investment space is going to bring together international investors of all levels and so we have worked to build a platform that will attract investors and capital from all over the world.

## SO HOW DOES IT WORK?

**Promote finance-equityholdings.com Investmets**

Not everyone is at the same level when it comes to asset management or investing in general. That's why we offer three different levels of partnership for our investors. We aim to educate our users so that they become more familiar and comfortable with investing conditions and earn as much money as possible. Becoming a partner of ours is fast, easy and takes just a moment. Once you register you will be given your own partnership or affiliate link. You can use this link on or offline with family, friends, acquaintances, or customers. However you want to use and market your link is up to you. Many of our users have had great success finding new investors on social media, via email, word of mouth, chat, text or advertising banners. It doesn't matter how someone finds your link so long as they click on it and sign up to be a registered user. Once they have signed up using your personal affiliate link they become one of your referrals.

## GET AFFILIATES & EARN MONEY

As soon as your referral starts investing, you start earning a commission. You will receive up to 10% reward for each amount they deposit. This is considered a tier one referral program. Our goal is to reward you every step of the way and help you grow your wealth. There is no cap or end to those rewards for as long as any referral in your downline stays active and stays invested. Your commissions are received automatically and you can invest or withdraw them at any time. We want you to succeed in your investing goals and wealth creation and help all those that you come in contact with do the same thing. Let's work together and change your future starting today.
